Low-voltage products and systems

From circuit breakers and busses to enclosures, panel boards, and switchboards, we offer a full range of safe, reliable solutions for low-voltage applications.

Building Automation & Control

Our innovative Building Management, Power Management Systems and Small Building Control products provide a strong foundation for intelligent buildings that inspire occupant productivity and deliver optimal energy and operational efficiency.

Automation and control solutions

Boxes, cabling and interface
Enclosures and accessories
Variable speed drives and Soft starters
HMI and industrial PC/Motor Starters
Contactors and Protection Components
PAC, PLC and dedicated controllers
Push buttons, switches, pilot lights and joysticks

Medium Voltage Distribution and Grid Automation Products

From medium voltage switchgear and transformers to energy automation, we deliver specific solutions for utilities, oil and gas, mining, data centers, and critical buildings, covering all power distribution needs for energy management.
